

# BRIGHT LORITOS

## Foreign Language For Kids

**Important Facts:**

- Acquiring another language is effortless for children.
- Exposing your child to a foreign language at an early age develops the brain's executive function and improves math skills, English verbal and listening skills.
- Children also gain confidence by learning a new language.
- Early foreign language exposure creates an appreciation for different cultures that prepares students to become aware of the world around them.

Unique to the Detroit area, Bright Loritos is the only facility offering an immersive approach to language instruction in several languages both on and off-site. Furthermore, only native speakers teach their classes, and their curriculum revolves around the total-physical response language method where language is taught through physical movement, stories, language learning activities and more.

**Dear Parents,**

We are eager to continue offering Spanish classes to Royal Oak Keller Elementary in the upcoming winter/spring semester. Bright Loritos reaches more than 3000 students every week in Oakland country, and besides offering classes in Spanish, we also teach Mandarin, Arabic, and French. Our mission is to build a brighter future that prepares students to succeed in a globalized world by developing their motivation in an organized environment, stressing creativity and world language acquisition.

Our team of bilingual educators is very excited to start a journey with Royal Oak Keller Elementary students this Fall and to expose your child to a great learning experience in Spanish. Our method motivates our students to absorb a second language through play and exploration naturally. By providing knowledgeable, caring native-speaker instructors, we create a safe, warm, multicultural learning environment. For more information about our program, please visit our website:
